Subject: RE: Question About Appendix D Blue Text

Hi Penny,

The 'response' bullets represent our responses to the NAS/NRC comments (the initial bullets), and so should be formatted the same. I am indifferent as to the formatting as long as it is consistent; if the easier change is to make all "RESPONSE"s bold and black (perhaps with a different level indent—for example no indent/bullet on the NRC comments or on the EPA responses) then that works for me (and I'm sure Barbara is likewise indifferent). Please use your best judgment.

Thanks for checking,
-Andrew

Subject: Question About Appendix D Blue Text

Hi Folks,

Quick question about the text in APPENDIX D. SUMMARY OF EXTERNAL PEER REVIEW AND PUBLIC COMMENTS AND EPA'S DISPOSITION.

In the cutout piece, below, does the blue text on the first response signify something different than the second response in black?

My question is, should the first response be formatted like the second one? Both Black with a lead-in bullet?

Thanks!
Penny
